

Introducing

THE NEW STANDARD FOR SIMPLE CONNECTIVITY

T6 Pro Smart

Honeywell T Series

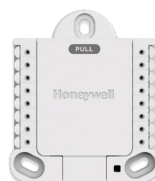

The Honeywell T Series is a portfolio of non-connected and Wi-Fi connected thermostats designed with contractors in mind. With simple functionality that's easy to use, and smart features that are easy to love, the new T6 Pro Smart enables you to deliver in-demand connectivity without the complexity.

A CONNECTED SOLUTION

that's better than ever.

Simple installation

All T Series thermostats, including the T6 Pro Smart, use the same UWP mounting system, helping your installers get in and out and on their way more quickly and efficiently.

UWP
mounting
system

Simple setup

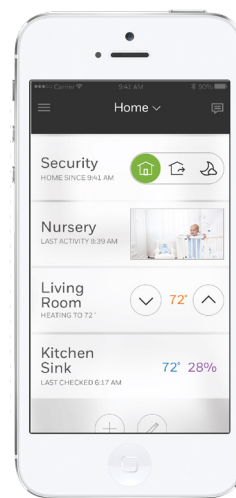

Your installers can choose to do setup and scheduling at the wall like a traditional thermostat, or they can use the new and improved Honeywell Home app.

Simple connection process

Installers can use the Honeywell Home app to send customers a personalized email that invites them to complete the Wi-Fi connection process on their own.

Simple ventilation control

The T6 Pro Smart is available with optional ventilation control for residential new construction projects that need to meet the ASHRAE 62.2 standard.

Honeywell Home app

Thermostat	Thermostat name	Program options	Power method	Display size	Stages	Dual fuel	Ventilation with ERV/HRV or damper	Wired indoor/outdoor sensors	Service reminders	Replaces this FocusPRO® model
